Social media Management and Advertising

The most important digital channels for every modern business.

Companies from all industries generate significant revenue and develop their brands through Facebook, Instagram and LinkedIn.

Does your brand use social media in the most effective way?

"If your organization still doesn't use social media, chances are your competitors will soon overtake you."

Services

Advertising campaigns

Creating an individual advertising plan for each brand, according to its business and marketing goals. Implementing advertising campaigns that aim to develop any company in the long run, setting realistic and measurable goals. Campaign remarketing.

Competition analysis

Competition analysis. Analysis and audit of all existing digital channels.

Creation of content and sharing posts

Creating publications, building a plan and consistent activity for regular updates to the audience of a brand. Publications are distributed within a pre-agreed time frame and analyzed for effectiveness.

Creative

Creation and development of the visual presentation of each brand. Following the company's conditions and requirements, we create visual content that brings value. Synchronized design, to any size, digital or media channel.

Copywriting

Personal messages and articles adapted to the marketing goals of each brand.

Support for digital channels

Our team can design your social events, and synchronize them with your brand and products. We can also customize them to match special promotions or seasons.

Create a campaign

Our internal marketing team can plan upcoming events, seasons, national holidays to provide you with maximum visibility.

Personal communication

Answering questions and inquiries of your potential customers.

FACEBOOK for Business 

Search engine marketing Google Advertising | SEO

Without search engines, our world would be different. They are the basis of good marketing and development of any business.

Does your brand use Google as its primary advertising channel?

"Life is like Google, you just have to know what you're looking for."

Services

PPC campaigns

Creating an individual advertising plan for each brand, according to its business and marketing goals. Implementation of advertising campaigns in search and display network, option for Youtube and Gmail advertising. Campaign remarketing.

Competition analysis.

Analysis of keywords searched by potential customers in organic or paid results. Analysis of consumer behavior.

Creative

Creation and development of visual presentation in a display network. Following the company's conditions and requirements, we create visual content that brings value. Synchronized design, for any size and campaign.

Copywriting

Personal messages and clear Call To Action calls.

Optimization, analysis and monthly reports

At the end of each week or month, we analyze the work done by our team for each of our partners. We prepare reports and reports to visualize our work.

We help your brand grow

Our team can realize your project and goals with additional services: email marketing, video, photography, influencer marketing and consulting.

Are you ready to work together?
